

## Become a Member and Help SEA to:

- » Preserve the essentially residential character of southeast Evanston through citizen participation in city planning and zoning
- » Propose solutions to community problems and encourage informed citizen involvement in community affairs
- » Serve as a source for community information
- » Advocate on behalf of southeast Evanston residents regarding zoning, land use, and historic and preservation, and environmental awareness

## Recent Activities

SEA has recently been active with other groups of citizens and the City of Evanston in the following areas:

- » **Lakefront Master Plan.** SEA members participated in focus groups and public workshops, and the board of directors published statements on the visioning and planning processes.
- » **Downtown Plan.** After participating in a design charrette, the SEA board issued a statement on the draft plan and made comments at public meetings of the Plan Commission. The board continues to monitor closely the deliberations of the Commission.
- » **708 Church Street Proposal.** The SEA board has expressed its concerns about the development of this property and proposed tower to the Planning and Development Committee and will continue to recommend that the approval of this project be coordinated with the downtown planning process.

Join today and help enhance the quality of life in your community.

## SEA Network

Southeast Evanston residents who choose not to join SEA are still invited to join the SEA Network to receive periodic notices about important community issues. Provide your name, address and e-mail address on the attached form, and we will add you to our SEA Network e-mail list. Or you may send an e-mail request (with your name and address) to [sea@sea-network.net](mailto:sea@sea-network.net).

The sole purpose of this list is for one-way communication from the SEA board about important local issues that we feel are worthy of your consideration or support—including notice of city meetings with opportunities for public comment.

The volume of messages is manageable. We will not share your e-mail address or other information with anyone.

## Membership Form
